Moroto Integrated Cement/Lime/Marble Plant in Karamoja

UDC and its private sector partners who include; Savanah Mines Limited, Moroto District Investment Agency Limited and a technology partner called Saboo Engineers Private Limited, are working together to set up an integrated 1250 MT/D cement and lime processing plant in Moroto district.

Moroto Ateker Cement Company Ltd. which was incorporated in 2016 is the Special purpose company through which UDC and partners are investing resources to actualize the integrated cement, lime and marble plant.

We believe the plant shall spiral drastic transformation of the economic environment of Karamoja region, as a whole.

PROGRESS;

We have undertaken preliminary studies, commenced exploration activities on ground, engaged the community for sensitization

regarding the project, acquired and fenced land for factory construction in Moroto district.
